Evaluation of student's activities performed in a particular academic year:

The student did not work very actively, he regularly consulted with me as a supervisor, prepared disgusting articles, however, I have a complaint about his completion of subjects according to the individual study plan.

I recommend that the student take exams in all remaining subjects, increase publication activity, especially in high-quality impact journals, and prepare a treatise on a doctoral dissertation.

Supervisor's recommendation to continue study of PhD student:	YES	NO
