Letter of Recommendation

I am pleased to write this recommendation letter with respect to the application of Dr. Jitka Komarkova for a full professor at the Faculty of Economics and Administration, University of Pardubice, Czech Republic.

We have got connected during research activities focused on open source geospatial data and automated warning geospatial system since 2013. The common activities led to two publications.

Dr. Komarkova has proved both her teaching and scientific skills and experience during the past years.

To conclude, I fully support her application for the full professor appointment at the University of Pardubice.

With warm regards

Piero Boccardo
